Dr. Goff...

This morning I happened to sit in on our instruction of implicit bias that's taught to our recruits. One of the instructors used a skit you appeared in on "The Daily Show" with Trevor Noah in his instruction. I thought what you was perfect for the class when discussing bias/racism. This has been a critical component to the message we've been pushing to our future officers. As a result, I'm not aware if you're still at UCLA or not, but I wanted to reach out to you to inquire if you would be interested in speaking with our recruits on this subject on a future date.

Hope to hear from you soon...
